

INSTRUCTION FOR SUBMITTING PROCEDURE

Stream A: Problem Solving

All you have to do is to Detect, Analyse and bring forward the existing problems in your Rural & Urban community and provide an Engineering solution to solve it.

Stream B: Breakthrough Innovation

This competition is for the Hungry Hearts and Young minds who wants to display and showcase their innovation to the world.

No registration fees is required

ORIGINAL INNOVATIONS ARE WELCOMED

Step 1: The Documents for the competition should follow the general process of our Reference Template which will be displayed on our website. Documents altered beyond our template will lose its basic criteria and won't be considered for the competition.

Step 2: Shortlisted people will be called upon for presentation. They will have to display their innovation at the premises of our honourable Judges.

Step 3: Research Funding will be rewarded to the winners of the competition at TISLA awards ceremony which will be held on October.
